THE WORLD'S EMERGING INVESTMENT DESTINATION

- India Continues to be the only country amongst the BRICS nations that has registered a year on year GDP growth of over 7% in a row and has a forecast of over 7.3% in the coming year. Backed by strong fundamentals and powerful economic reforms.
- Stable Commercial Real Estate Demand backed by one of the most organised commercial markets in the Asia Pacific Region with over 530 mn sq.ft of ready Grade A of office assets that's likely to surpass 700 mn sq.ft. in the next 3 years. The vacancy stands at just 14% which is considered to be a natural vacancy rate for a market as vast and segregated as India.
- The Government of India passed the Real Estate Regulation Authority (RERA) Act in March 2016 to ensure efficient and transparent business transactions in the Real Estate sector. The several reforms implemented by RERA have given the Indian Real Estate Industry its first regulator. This has boosted the confidence of buyers and the Real Estate Industry is heading for a major boom with compliance being followed by all Real Estate Developers. It is mandatory for every State and Union Territory to have its own regulator under RERA.
- **Destination of Choice for Retail** Ranked 1st in AT Kearney Global Retail Development Index and Nielsen Global Consumer Confidence Index, India stands tall amongst it's world peers when it comes to its burgeoning 1.3 Billion Consumer Market where 65% of its population is under 35, and per capita income rising by over 10.3% on a year on year basis.
- **Youngest Population in the world** Increasing urbanisation, incomes and rising aspirations for a better life , especially among the lower economic strata are some of the factors reshaping the Indian Consumer Market. India has the potential to be one of the largest consumer markets globally with consumer spending expected to touch US 3.6 Trillion by 2022.
